

I'm Benjamin Regonesi

I'm a chilean student of engineering with major in computer science. Currently I'm an exchange student at the University of Texas at Austin. Let's start scrolling and learn more about me.

About Me

My name is Benjamin Regonesi. I'm from Chile and currently in an exchange program at the University of Texas at Austin. I study Engineering, majoring in Operational Research and with a minor in Programming. In Chile, you specialize at the same university within the same career, so I will specialize in IT Management (it's a mix between computer science, engineering and business) and if you're wondering how long it is, its a 6 year long career (like most of them at Chile).

Sadly, my exchange program ends in December, so I'll have to

leave.

As I said before, I'm a programmer and I have advanced skills in Python, Rails, SQL, PHP. I also have knowledge in networking as well as UNIX. er how long it is, its a 6 year long career (like most of them at Chile).
